

CITIES AND PLACES OF WORSHIP A CHALLENGE FOR MULTICULTURAL SOCIETIES

**March 23 and 24 2006
Barcelona Scientific Park Auditorium
Baldri i Reixac, 4-6 Barcelona**

The deep social changes in our society have a specific impact on the relations between the public regulation of the use of land and the effective exercise of the religious freedom, taking into account the necessary legal limits for guaranteeing concurrent general interests.

The Seminar tries to make an approach about a subject with little legal treatment, taking into consideration of several compared experiences and a legal analysis from Public Law and the social reality and proposing precise legal modifications to guarantee social cohesion in our society, in order to avoid the conflicts that start to arise.

The Seminar will be funded through the project of legal research *Land Use Law and Social Exclusion: the Legal Fight Against Urban Ghettos (BJU2003-09694-C02-02)*.

Director: **Dr. Juli Ponce Solé**
